SUBJECT: AuroMedics Pharma LLC (AuroMedics) is now Eugia US LLC (Eugia US)

Dear all,

Today marks an exciting new chapter for our company as we formally begin the transition to a new **specialty business called Eugia**. As part of this transition, AuroMedics will fall under our new parent company, Eugia Pharma Specialties Limited.

Our new name combines “Eu,” a Greek prefix meaning “good” or “well”, along with “Hygia,” known in Greek mythology as the “goddess of health” — together reflecting our focus on delivering products that are foundational to ensuring good health for millions of people around the world.

As Eugia, we are evolving from a business solely focused on generic injectables to a specialty pharmaceutical company with a focus on a range of therapeutic areas, such as oncology, hormone therapies, ophthalmology and others.

Eugia will have the benefit of dedicated resources enabling us to be nimbler and more focused to meet market and customer demands, including dedicated leadership, manufacturing facilities, R&D capabilities, product selection teams, logistics, quality control, business development and supply chain etc.

We will maintain our vertically integrated operational structure, retaining control over every step of the manufacturing process, from production of API through final delivery to our customers, which uniquely positions Eugia to anticipate our customer needs.

While our name might be new, we have a proven track record of quality products, strong talent and exemplary service, and we remain committed to being a partner of choice to deliver on the promise of generic specialty pharmaceuticals.

Sincerely,

A handwritten signature in black ink that reads "Mark Fedele". The signature is written in a cursive, flowing style.

Mark Fedele
President, Eugia US LLC
